

CESSNA AIRCRAFT COMPANY CONFIRMS PARTICIPATION TO “ICARUS 2008”

CESSNA AIRCRAFT COMPANY and its exclusive agent in Greece, KOSTAS KARAGIANNIS S.A., have confirmed their participation to **ICARUS 2008, the 1st International Aero Expo Athens.**

Cessna will showcase three of its single engine airplanes, namely a CESSNA GRAND CARAVAN, a CESSNA 182 and a CESSNA 400.

The **new Grand Caravan** is the legendary top of the line Cessna now fitted with the **Garmin G1000 glass cockpit**. The Grand Caravan is a single turboprop engine, fixed-gear, short-haul regional airliner and utility aircraft.

The **Cessna 182**, known as the **Skylane**, is a four-seat, single-engine, light airplane. It is also produced with retractable landing gear and is **the second most popular Cessna** model after the 172.

Cessna 400 is the most recent addition to the CESSNA family after the acquisition of US Columbia. It is a single-engine, fixed-gear, low-wing general aviation aircraft built from composite materials. The Cessna 400 is **the fastest aircraft with fixed landing gear**, reaching a speed of **235 knots** true air speed at 25,000 feet

It should be noted that it is the **first time** that the new Grand Caravan and the Cessna 400 are presented in Greece.
