KAVALA - GREECE 2011

EGNATIA AVIATION - AOPA

Subject **KAVALA FLY- IN and AIR SHOW 3-5 June 2011**

2nd Announcement - April 13, 2011

Egnatia Aviation and AOPA Hellas announce that those interested in Kavala Fly-In 2011 should fill in the attached Registration and Hotel booking forms also published on our website www.kavalafly-in.com.

Early indication show record number of participants, surpassing even the 2009 numbers. The apron is going to be full of airplanes, helicopters and ultra light aircrafts from all over Greece and abroad..

Apart from airplanes and pilots, who will take part in aviation celebration, there will be a number of Greek and foreign pilots with great reputation. Highlight of the event will be the performance of 4 aircraft from the Italian acrobatic team PIONEER, ie the same team that took part in the demonstration held at Tatoi few years ago. The difference is that this time, the Italian Team has improved its program, so the planes will fly through a cloud of fireworks. Some fireworks will be lanced from ground towards the planes and others from the planes down to the ground.

The two forms that accompany today's announcement are

(A) Registration form, which should be completed and shipped as indicated

(B) Hotel Booking Form

For better pricing and administration, hotel bookings are handled by a regional travel office. The special pricing is valid until May 20th, subject to availability. Of course, the Travel Agency will be able to accommodate any requests even on the very last day, in these or alternative hotels. In any case, an early booking will be an advantage. You can of course make your own arrangements if you wish so.

The selected hotels are HOTEL GALAXY, a 4-star, city hotel, fully renovated on 2011 and TOSCA BEACH, a 4-star beach hotel just 5 km from the center of Kavala suitable for the family.

ATTENTION: To take advantage of the pricing and other event benefits please contact this travel office directly.
